EDUCATION

Master of Computer Applications

Yashaswi IIMS, Chinchwad

2025 – Pursuing

Bachelor of Computer Applications

ATSS College, Chinchwad

2025 | 9.19 CGPA

HSC (12th Grade)

S.G.M College, Karad

2021 | 83.50%

SSC (10th Grade)

Krishna English Medium School,

Wathar

2019 | 70.40%

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Frontend: HTML, CSS, React

Backend: Flask, Django, Spring Boot

Databases: MySQL, PostgreSQL,
MongoDB

Libraries: OpenCV, Pandas, Scikit-learn

Tools: Git, GitHub, VS Code, Jupyter Notebook, Canva

AI Tools: ChatGPT, GitHub Copilot, Gemini, Claude AI, Grok AI

CERTIFICATIONS

- RDBMS PostgreSQL Training — IIMS (Apr 2026)
- Git Training — IIMS (Apr 2026)
- Python 3.4.3 Training — IIMS (Apr 2026)
- React JS Course — Certificate of Excellence (Dec 2024)
- Flask & Django Framework — MKCL (Aug 2025)
- DevForge — GDLC PCCOE (Feb 2024)
- Data & Analytic — Industry Academia Community (Jul 2023)
- Data Visualization with Excel & Power BI (Feb 2024)

CAREER OBJECTIVE

Aspiring Software Developer with strong technical and analytical skills, seeking an entry-level opportunity to build scalable applications and deliver data-driven solutions. Passionate about continuous learning, problem-solving, and creating innovative real-world solutions.

EXPERIENCE

FrontEnd Intern

Kara Internship | February 2025 – August 2025

- Worked with Shopify to develop and manage e-commerce websites.
- Customized Shopify themes to improve website design and user experience.
- Added and managed products, collections, and store content on Shopify.
- Improved website performance and functionality using Shopify tools and features.
- Handled basic store setup, configurations, and updates on Shopify.

PROJECTS

Video Steganography System | Java, OpenCV | [GitHub](#)

- Designed a system to embed confidential data inside video frames using LSB steganography
- Implemented frame-by-frame OpenCV processing for accurate encoding and decoding of hidden data
- Developed a user interface for video upload and secure input/output of hidden information

SpendWise – Expense Management App | React, Django, SQLite | [GitHub](#)

- Built a full-stack web application with JWT based authentication and role-based access control
- Implemented expense CRUD operations with category management and financial goal tracking
- Integrated interactive charts to visualize spending patterns and improve financial awareness

Reel Generator | Python, Video Processing Libraries | [GitHub](#)

- Automated highlight detection from YouTube videos to generate 30-second social media reels
- Reduced manual editing effort through algorithmic key-moment identification and clip export

Startup Funding Analysis | Python, Pandas, Matplotlib | [Link](#)

- Cleaned and analyzed startup funding datasets to identify investment trends and growth patterns
- Created visualizations and reports revealing insights into investor behavior and funding rounds

RESEARCH PUBLICATION

Behavioral Finance Analysis Using Artificial Intelligence on Player Spending Patterns in Grand Theft Auto V

Proceedings of the 6th International Conference on Innovation in Management and Information Technology
